**ALCOSWITCH DIP Switches**

- Full line of DIP switches with different profiles
- Different actuator styles available – piano, extended, rocker, flush
- Piano and Slide styles that don't require sealing to go through wash process
- Half pitch .050" terminal spacing (GDH version)
- Variety of Rotary DIP switches with different body sizes available (9 mm and 7 mm)
- Available in through-hole and surface mount
- Available in optional tape & reel packaging
- Variety of SIP switches available
- Multiple sizes of DIP shunts available
- Order Catalog 1308390, "ALCOSWITCH Products"

**ALCOSWITCH Slide Switches**

- One of the broadest lines in the industry
- 1 to 6 pole configurations and single throw to 10 throw (SP to 6P and ST to 10T)
- Current ratings from 0.4V @ 20 VDC to 3A @ 115 VAC
- Miniature and subminiature case sizes
- Gold or silver plating available
- Wave solderable, washable, and surface mount versions
- Rocker (butt), shoe and bifurcated contact mechanisms
- Many profiles and actuator styles available e.g., vertical and right-angle actuator styles
- 10,000 cycles or higher
- Order Catalog 1308390, "ALCOSWITCH Products"

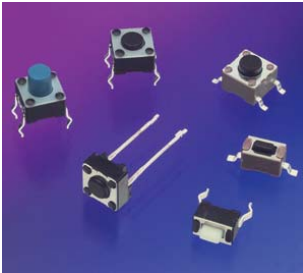

**ALCOSWITCH Toggle Switches**

- Wide range of physical sizes and current ratings
- Silver and gold plating options
- Sealed switches available
- Straight or right-angle options available
- Wide variety of toggle configurations available
- Through-hole or surface mount PCB tails or panel mount options
- Order Catalog 1308390, "ALCOSWITCH Products"

**ALCOSWITCH Pushbutton Switches**

- Silver and gold plating options
- Sealed switches available
- Through-hole or surface mount PC tails or panel mount options
- Straight or right-angle option available
- Large variety of button styles and switching functions
- Wide range of physical sizes and current ratings
- Order Catalog 1308390, "ALCOSWITCH Products"

**ALCOSWITCH Tactile Switches**

- Variety of actuators and mounting types, 3.5 x 6 mm, 4.9 x 4.9 mm, 6 x 6 mm and 12 x 12 mm sizes available
- 3 available actuation forces – 100/160/260 grams
- Through-hole and surface mount types
- Good tactile feel
- Available either sealed or unsealed
- Radial tape or tape & reel packaging options available
- Order Catalog 1308390, "ALCOSWITCH Products"

**ALCOSWITCH Rocker and Paddle Switches**

- Many styles of terminations, rockers, paddles, bezels, and mountings
- Ratings up to 16A @ 125 VAC; 10A @ 250 VAC
- Illuminated rockers available
- Agency approvals on high current models
- Available in gold or silver plating
- Order Catalog 1308390, "ALCOSWITCH Products"

**ALCOSWITCH Rotary Switches**

- PCB mountable
- Products available in 1-4 poles
- Products available in 2 to 32 positions with adjustable stops
- Products available in Octal, Decimal, and Hexadecimal coding
- Flush shafts, extended shafts, bar knobs and thumbwheel shaft options available
- Current ratings up to .5 A at 125 VAC
- Splashproof versions available
- Order Catalog 1308390, "ALCOSWITCH Products"

**ALCOSWITCH Keylock Switches**

- Medium security and high security 2 position key switches
- All keylocks supplied with 2 brass keys on a ring
- Variety of key removal options
- Choice of 4, 5 or 8 disc tumblers
- SPST, SPDT, DPDT options
- Order Catalog 1308390, “ALCOSWITCH Products”

**ALCOSWITCH Industrial Control Switches**

- Contacts electrically independent
- Excellent tactile feel
- Double break contacts
- Oil tight models meet NEMA 1, 12, 13
- Metal or plastic bushing options
- Double break contacts
- Full size buttons
- Screw terminals or quick connects
- Easy “no tool” mounting
- 16 mm Command Series, 22 & 30 mm Reliant Series
- Order Catalog 1308390, “ALCOSWITCH Products”

**ALCOSWITCH Pushwheel Switches**

- SH6 Series — Smallest panel-mounted dual pushbutton code switches available; snap-action detent with an audible click.
- PICOD Series — Small panel-mounted pushwheel code switches. Ideally suited for high density applications. Easy to read characters viewed through dust-sealed window. Snap-together design minimizes cost – no inconvenient hardware
- SMCD Series — Large visible readout characters despite its small size. Protected by dust-sealed windows. Snap together grouping and snap-in panel mounting minimize installation time and cost.
- DPS8 Series — Compact, lower cost family of instrument grade, pushbutton code switches for numerical input applications.
- DPS9 and DPS10 dual pushbutton code switches have identical height but differ in width. Provide silent, reliable state-of-the-art bi-directional operation and can directly retrofit common thumbwheel switches.
- Order Catalog 1308390, “ALCOSWITCH Products”

**ALCOSWITCH Knobs**

- Large selection of both plastic and solid aluminum types
- 1/4" or 1/8" shaft sizes
- Various inlays, skirts and finishes available
- Customization available
- Order Catalog 1308390, "ALCOSWITCH Products"

**ALCOSWITCH Microswitches**

- Micro and mini micro sizes
- Current ratings 15A to .1A
- Quick connect terminals
- Switches color coded to distinguish current ratings
- Multiple operating forces
- Variety of button, lever and roller actuating options available
- High mechanical and electrical cycle life
- Agency Approvals
- Order Catalog 1308390, "ALCOSWITCH Products"

**Tyco Electronics Power Tool Switches**

- Multiple series - various trigger styles and colors including reversing lever styles
- AC Variable Speed and On/Off Trigger Switches - AC Variable Speed Switches; Dust Resistant AC Variable Speed Switches; On/Off switches
- DC Variable Speed, Two Speed and On/Off Trigger Switches – In-Line Cordless Tool Switches; "L" Style Cordless Power Tool Switches; On/Off Switches for Cordless Tools
- Industrial Tool Switches – Industrial Dynamic Brake Switches; Industrial On/Off Switches and AC/DC Industrial Dust Resistant Switches
- Custom Power Tool Switches
- Lock On or Lock Off options
- Switch/Trigger Styles: Electronics Modules, In-Line, Overhanging, Paddle, Rocker, Slide and Toggle
- Switch Types: On/Off, Two-Speed, Variable-Speed, Reversing function
- Termination Types: Quick connect terminals, Arc-less, lead, push-in, screw, tab or plug-in
- Order Catalog 1308650, "Power Tool Switches"
- Product Data Sheets
  - 1654491, "J Series AC Variable Speed Switch"
  - 1654706, "N Series AC Variable Speed Switch"
  - 1654782, "Overhanging AC Variable Speed Switch"
  - 1654879, "AC Power Toggle (On/Off) Switch"
